4.3.1 Institution frequently updates its IT facilities including Wi-Fi and provides sufficient bandwidth for internet connection

College aims at providing the facilities to its students so that they can utilize these resources to reach greater heights. To enable this, the institution frequently updates its IT facilities to provide its students with the best of facilities. All Classrooms have been equipped with LCD projectors and most of them are supported by audio visual systems. The entire campus is monitored by CCTV facility. The college is facilitated with 366 computers that are accessible to the students as well as the teachers for academic and co-curricular purposes. Printers are arranged in the office, staffrooms, library, exam branch and laboratories. A total of 12 printers are arranged in the whole college for the functioning. Wi-Fi is available. Wi-Fi routers are available in the college. Students are given limited accessibility to this facility. There are two systems in library for borrowing a book. This allows for easy tracking of books in the library. Information about upcoming events is available on the website. This information includes the time and date along with details about the event. Following the completion of the event, pictures and minutes of the event are also uploaded for easy access. This allows the parents to be aware of the programs being conducted in college as well. The academic calendar as well as the course information is also updated in the beginning of every academic year. The technology at college is constantly updated.

Software:
